SECRET CONTROL-U.S. OFFICIALS ONLY

Present Director: Ferenc Kiripacs

Party Representative: Janos Berta

Union Representative: Andras Peter

In recent months, all internal means of transport in the factory have been motorized, and the small carts have been provided with electric motors. This improvement has greatly expedited operations.

The main shop, No. 519, has been supplying rr car wheels for several months, but for the last six months it has not been able to fulfill the plan. A special brigade

50X1-HUM

~~of specialists~~ has been formed to reduce the time that machine-tools are out of operation (machines not running, under repair, etc.) [redacted] 50X1-HUM

The chief orders sent to the factory have been:

a) Pumping installation for the power plant of the Stalin Combine at Dunapentele.

b) Pumping installation for the power plant of the aluminum works of Inota.

c) Steam turbine for the power plant of the steel works at Diosgyor.

d) Steam turbines for Bulgaria and Rumania. The number of the series is unknown.

e) Railcars for USSR. These orders always have priority and raw material supplies are expedited for them.

The plan for the first half of 1952 was

50X1-HUM

fulfilled only 90%. Actually, the deficit is much greater.

The following Soviet equipment has been received:

1 twist drilling machine [redacted]

1 casting machine [redacted]

1 horizontal grinding machine with magnetic table. 50X1-HUM

This equipment is of mediocre quality and the workers using it are very dissatisfied.

2) Shipyards:

Danube vessels [redacted] (1000 and 1300 tons) were launched 1/6/52 and work on [redacted] was started right afterward. 50X1-HUM

Because of the large number of orders, three shifts have been instituted to make full use of the machine tools. The spe-

cialists work on shifts 1 and 3, and the the apprentices from the factory school also work on the second shift. Repair of machines is done during the intervals and is not paid for. Machines may not be stopped during working hours, even for repairs.

In April 1952 the plan ~~could be~~ was fulfilled only 75%, and the administration gave the explanation that the ~~equipment~~ material was not properly prepared, especially in regard to soldering.

The former "lifting devices" department became independent at the beginning of 1952 and was given its own administration. At present traveling cranes are being made there for Hungary and ~~abroad~~ for export. The orders include, among other things:

50X1-HUM

1 floating crane of 100 tons

3 floating cranes of 50 tons each

12 cranes for the port of the Stalin Combine at Dunapentele.

3) Electric equipment factory.

Administrative personnel:

1) Machine construction section chief: Engineer Andor Mandl.

2.) Direct current machine construction chief: Gabor Meszaros

3) Transformer section: Dezsö Markus

4) Transformer construction: Karoly Pauspatl ~~Paupatl~~

5) RR section: Pal Sztroka y

6) Dynamoes and electric motors section: Pal Strommer

7) Technical control: Janos Schmidt

All the above technicians are professionals uninterested in politics and hostile

50X1-HUM

to the regime. The administration and the party are aware of this but can not do anything about it because the men are indispensable.

The plant is now working on the following orders:

2 2,400 KW transformers

4 pumps motors - 475 horsepower

4 ~~gasoline~~ gas motors, 250-110 horsepower

3 6,000 KW transformers

7 transformers (power not given)

The following orders for the Stalin Combine at Dunapentele are urgent:

5 electric motors of 100 horsepower

10 " " " 2.4 "

7 " " " 4.5 "

1200 Leykam insulators.
